

**PAPER
TECHNOLOGIES**

**A commitment
that goes
to the core.**

OUR COMMITMENT:

To roll out a more sustainable future for pulp and paper on every continent.

Buckman is the only specialty chemical company that serves the pulp and paper industry on every populated continent. In fact, we serve customers in more than ninety countries. Improving fibers through enzyme technologies. Streamlining wet end performance. Enhancing paper attributes. Monitoring processes. And finding innovative ways to save energy and other resources to make mills more profitable and more sustainable.

From river to reel, we continue to develop and apply innovative chemistries and smart technologies. We provide hands-on technical support. And we produce a significant return on investment for our customers year after year. We can do the same for you.

Continuous commitment. Sustainable success. Global scale. That's the promise of Buckman paper technologies.

BUCKMAN EXPERTISE

Cartonboard | Containerboard | Fine paper | Liquid packaging | Newsprint | Publication papers | Pulp
Recycling & deinking | Specialty grades | Tissue & towel | Recovery boilers & utilities | Water treatment

APPLICATIONS AND PRODUCTS

Biocides and preservatives | Boiler & cooling water treatment | Boilout/felt cleaning chemicals
Chelants for metals management | Corrosion control | Coagulants for charge control | Defoamers
Deinking chemicals | Deposit control | Dispersants | Dry & wet strength | Dye fixatives | Effluent treatment
Enzymes | Pitch & stickies control | Pulping aids | Retention/drainage programs | Scale control | Sizing chemicals
Smart technology | Tissue softeners/debonders | Wash & drainage aids | Yankee adhesion & release agent
