

Give your leathers the Butan™ Oil touch.

## Gain more control over leather characteristics with advanced Butan Oil fatliquors from Buckman.

Whether you are looking for softness, stretch, strength or a complex combination of qualities in your finished leather, Buckman's full line of Butan Oil fatliquors can help you achieve it. They're formulated to provide outstanding lubrication and, even more important, superior control over distribution and penetration, so you can have more control over leather's function and aesthetics.

Butan Oils from Buckman are one more way we apply *Leatherforward Thinking* to advance production enhance leather and solve your biggest challenges. Give your fatliquor program the Butan Oil touch, and see just how great leather—and your control over it—can feel.

## Make the most of every product and every marketplace opportunity.

We know that improper fatliquoring can undo all the good work done in retanning. Poor or uneven lubrication can result in too much firmness. Too much penetration can result in leather that's too soft and loose-grained. That's why Buckman expertise is a part of every Butan<sup>TM</sup> fatliquor. Our Butan Oil programs have been designed to combine quality fatliquor ingredients with careful application that takes into account dosage, temperature, mechanical action and time.

With a customized Butan Oil program, you can achieve just the right characteristics with consistency. So you have the versatility to meet changing market demands and the quality to exceed expectations.

### Reliability.

Every Butan Oil product is a precise formulation of quality raw materials and select additives. They are the result of extensive testing and field trials to ensure outstanding performance on a wide variety of substrates and finished articles.

### Versatility.

With a wide variety of fatliquors to choose from you can control touch, softness and handle to produce leathers that are:

- Full and light
- Round and bouncy
- Soft and silky
- Fluffy and mellow

At the same time, Butan Oil gives you the power to:

- Control break, stretch, stitch tear and tensile strength
- Promote effective waterproofing
- Reduce risk of fatty spew
- Preserve breathability
- Accommodate burnishing, polishing and glazing
- And more

### Butan Oil can.

Can your current fatliquor program help you realize the full potential of your leathers and your tannery? Butan can. To learn more about advanced Butan Oil fatliquor blends and what they can do for you, contact your Buckman representative or visit [buckman.com](http://buckman.com).
