

WASTEWATER COMPLIANCE

Take the wasteful spending out of wastewater compliance.

To address ever tightening permit limits, look to a chemical company without limits: Buckman.

The real waste in wastewater is the cost of non-compliance, the fines and surcharges that can really add up. Buckman has a comprehensive wastewater treatment program of advanced chemical solutions and on-site technical expertise that can help you meet your discharge limits at the lowest possible cost. So you worry less and spend less.

Bring a new level of efficiency to your entire effluent treatment operation.

As you face increased pressure to improve your pretreatment program, Buckman provides the technologies and application expertise to make it easier. Look to us for inorganic and organic coagulants, oil separation polymers, sludge dewatering aids, and organic flocculants. We'll help you meet government mandates and your local POTW requirements.

Separation

Regardless of the kind of unit you are running or the impurities to be removed, Buckman has the solutions you need for effective separation of liquids and solids. Rely on us for:

- Oil and grease removal
- Metal precipitation
- BOD/COD reduction
- Emulsion breaking
- Odor control

- Foam control
- Bioaugmentation

Sludge dewatering

For solid waste treatment in plate and frame, centrifuge, and belt press systems, Buckman has the technology and know-how to minimize sludge moisture content while producing clean water.

Equipment

We provide a complete line of reliable feed and storage equipment to ensure safe and effective application of all treatment products.

Water recycling

Buckman has the expertise to help you develop a water reuse program for your plant processes so you can conserve resources and save money.
