

MICROBICIDES

Buckman chemicals will enable you to optimize your system and product performance. Our microbicides are unsurpassed in the industry for quality, effectiveness and value.

Unique and proprietary aqueous solutions provide cost-effective microbiological control for a range of applications.

- Cooling Water
- Reverse Osmosis
- Fuel Treatment
- Metal Working
- Oil and Gas
- Wastewater
- And many others

Coordinated approach using the correct products for each application, while designing a complete value-driven package. Buckman can help you identify the right microbicide for your applications.

- Specific system requirements
- Product stewardship
- Safety, Health and Environmental
- Regulatory

Comprehensive product line including:

- Traditional organic microbicides
- Inorganic oxidizing chemistries
- Biodispersant (non-biocide)
- Enzyme-based technology

Biocide Reference Chart

Microbicide	Foam	6-8 pH 8-9		Bacteria	SRB	Light Algae	Heavy Algae	Fungi

R = Recommended
N = Not recommended

U.S. EPA registered biocides cannot be repackaged, diluted or relabeled without approval from Buckman and subsequent registration with the U.S. EPA. Please contact your Buckman representative if you have any questions concerning your use of Buckman registered biocides.

U.S. EPA registered biocides must be used in approved applications in accordance with the U.S. EPA approved label. Your Buckman representative can answer questions regarding approved uses.

U.S. EPA registered products must be registered with each local state EPA agency prior to shipment into that state. Ask your Buckman representative for information regarding Buckman state registrations.

This is not an offer for sale. The product shown in this literature may not be available for sale and/or available in all geographies where Buckman is represented. The claims made may not have been approved for use in all countries. Buckman assumes no obligation or liability for the information. Please contact your Buckman sales representative for more information.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the directions for use when used in accordance with the directions under normal conditions. Buyer assumes the risk of any use contrary to such directions.
